

ASUPRA ANALIZEI FIABILITĂȚII REȚELELOR DE TELECOMUNICAȚII ISDN

Ioan C. BACIVAROV*, Angelica-Beatrice BACIVAROV*

Abstract: *In the first part of the paper, some problems related to the reliability analysis/evaluation of complex communication networks are analysed. In the second part of the paper a method for reliability analysis of ISDN (Integrated Service Digital Network)-based on the ITU Recommendations is presented.*

Keywords: *Reliability analysis, communication networks, ISDN, traffic analysis.*
